

EVL Half Team Relay Instructions

Hello EVL Team Relay Runners!

Thank you for signing up for the two person EVL Half Marathon Relay. This guide will give you all the race day details for your relay team. The relay is run on the same course as the Half Marathon with the transfer point at roughly the halfway point.

Bibs can be picked up at Ellicottville Brewing Company from 8am to 10:45am.

Start time is 11:00 am with the Half Marathon.

First leg runners will pick up their medals at the transfer stations. Both runners will pick up their shirts after the race in front of Ellicottville Brewing just be sure to bring your bib as we will need the tear off for shirt size.

The relay is self supported, meaning you drive to the relay point and have your teammate drive the vehicle back to the start. There will be portable toilets at the transfer point.

Important – Make a plan with your teammate about the car keys and don't lock the car doors!

Please wait in your cars at if all possible and maintain proper social distance while waiting for your teammate. Wait outside the start area until you see your teammate.

To keep cars out of the path of other runners we have put together a detailed route to get to the transfer point and from the transfer point back to Ellicottville. Please do not follow runners on course as traffic is restricted, and law enforcement will not allow cars to travel on certain sections.

Please email info@endurancefactor.com with any questions.
